

2.3 | JÁCENAS FORJADO TIPO JL

DIMENSIONES SECCIÓN (cm).									
A	55	65	75						
B	40	50	60						
C	20	25	30	35	40	45	50		
D	10	15	20	25	30	35	40	45	50

The diagram illustrates a 3D perspective view of a forged anvil (Jácena) with a series of parallel ridges on its top surface. Dimension A represents the width of the base. Dimension B represents the width of the top surface. Dimension C represents the height of the base. Dimension D represents the height of the top surface. The length of the anvil is labeled as L = VARIABLE.
